Vibro-Meter® DIC413 de-icing controller

Dear Customer,

We are contacting you further to your past purchase of a DIC413 de-icing controller from Meggitt's Vibro-Meter® product line. While we trust that this product has served you well, Meggitt is committed to offering our customers the best possible measurement and monitoring solutions, to help you to get the best from your machinery. This naturally involves updating and replacing items in our product range.

This letter is to inform you that the new version 024 of the DIC413 is compliant with the European Union (EU) directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (commonly referred to as the restriction of hazardous substances directive or RoHS 2).

Following extensive tests carried out by our Engineering team, we can guarantee that the new version of the DIC413 is a fit and functionally equivalent replacement.

The affected part number (PNR) is:

- 241-413-000-023 replaced by 241-413-000-024.

After the stock of the existing version of the DIC413 runs out, the new version will automatically be confirmed for all deliveries. This transition is expected in Q4, 2018.

Please do not hesitate to contact your Meggitt representative, who will help you with any further questions you may have.

Yours faithfully,

Frédéric Micco

Senior Product Manager (Energy)
