Configured computer – discontinuation letter

Dear whom it may concern,

We are writing to inform you that we have decided to stop producing configured computer for our protection and condition monitoring systems using VibroSight software.

Please find below the discontinued PNR:

- 601-005-000-001

Resale of IT hardware is not our core competency and our subcontracting partner ceased activity. Therefore we are not able to continue to offer this product at a reasonable price and lead time and with the expected level of service.

Of course, we continue to enable reliable power generation with our innovative monitoring solutions, including our VibroSight software.

Yours sincerely

Michaël Hafner
Product Owner
