## **Vibro-Meter® TGS108 Transducer Gap Simulator**

Dear Customer,

This letter is to inform you about the obsolescence of the TGS108 Transducer Gap Simulator from Meggitt's Vibro-Meter® product line. While we trust that this product has served you well, Meggitt is committed to offering our customers the best possible measurement and monitoring solutions, to help you to get the most from your machinery. This naturally involves updating and replacing items in our product range.

As a result, we can no longer supply the TGS108. There is no alternative available within our portfolio for this product.

Please do not hesitate to contact your Meggitt representative, who will help you with any further questions you may have.

Yours sincerely

**Michaël Hafner**  
Product Manager  
Motion, Power & Sensing
