vibro-meter® CA280 piezoelectric accelerometer

Dear Customer,

We are contacting you further to your past purchase of CA280 piezoelectric accelerometer from Meggitt's vibro-meter® product line. While we trust that this product has served you well, Meggitt is committed to offering our customers the best possible measurement and monitoring solutions, to help you to get the most from your machinery. This naturally involves updating and replacing items in our product range.

Accordingly, this letter is to inform you about the replacement of the current versions of the CA280. Following extensive tests carried out by our Engineering team, we can guarantee that the new versions xx6 of the CA280 are form, fit and functionally equivalent.

The affected part numbers are:

Previous versions	Replaced by
144-280-000-01x	144-280-000-016
144-280-000-1xy	144-280-000-1x6
144-280-000-2xy	144-280-000-2x6

The new versions xx6 of CA280 becomes our new standard for future applications and must be offered in replacement of the previous versions. After the stock of existing versions sensors runs out, new CA280 version xx6 will automatically be confirmed for all deliveries. This transition is expected during Q3, 2022.

Please do not hesitate to contact your Meggitt representative, who will help you with any further questions you may have.

Yours faithfully,

Frédéric Micco
